This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Unfortunately, we can't make that part free. Files can be downloaded from any computer from our high speed servers. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. You decide who you want to share your files with. You can upload any type of file (movies, music, documents, images, zip files and more). The cost of that data transfer is covered by your internet service or the data plan on your phone. It is also allowed to link to the download page from websites and communities. We have no file size limit. So try our free and simple filehosting service now. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. If only we could, we surely would! On the other hand, using file can actually save you money. There are no restrictions on the number of times a file can be downloaded. Just upload the file you want to share with your friends and we send you a download link to your file. Simply upload your file and share the link. Using file, you can circumvent those limits without paying to upgradeyour team chat service. Keep your files private, or send your download links only to friends or family. Files transferred the old-fashioned way tend to pile upand be forgotten about, eventually costing you money in data storage fees. Our service is completely free for everyone. filehosting provides an easy possibilityfor you to send large files to your friends. You don't need any special software installed to be able to download your files. No account or credit card is requiredto get started. Any file in any format can be uploaded and downloaded for free. File is free to use with no gotchas and no hidden fees. You can give thisdownload link to your friends by mail or instant messenger. Your wallet will be none-the-lighter! Just so we're all 100% clear here: Whe
